THOR

Disposable glove, THOR High Risk, L,
blue, nitrile, powder free

CAT
III

Product Description

THOR High Risk provides high protection combined with good comfort. These nitrile gloves are particularly suitable for chemical splash protection due to the thickness of the glove, without compromising on tactile sensitivity. The gloves are particularly suitable for pharma, food industry, automotive industry and professional cleaning applications.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

The glass-fork-symbol guarantees that products live up to the demands stated in the European legislation for food contact materials. The symbol is not mandatory but advised on products used for food contact.

Third-party type approval is required for all Category III personal protective equipment (PPE) products. CAT III products will be accompanied by a notified body number for the 3rd party verification of the product's safety.

The product does not contain latex.

The glove has a finger textured surface.

The glove has a medium grip.

The glove is 300 mm long.

The standard specifies the requirements for protective gloves against hazardous chemicals and microorganisms. This part of the standard describes the glove's resistance to bacteria, fungi and viruses.

The standard specifies the requirements for protective gloves in relation to general requirements and test methods.
